The screenshot displays the Visual Studio Code interface. On the left, the Explorer sidebar shows a project structure with a file named 'package.json'. The main editor window is open to 'package.json', showing the following content:

```
{
  "name": "assign3",
  "version": "1.0.0",
  "description": "",
  "main": "index.js",
  "scripts": {
    "test": "echo \"Error: no test specified\" & exit 1"
  }
}
```

Below the editor, the integrated terminal shows the command 'PS D:\33201_AdmFutal\Assign3 > npm run server' being executed. The output of the command is:

```
> assign3@1.0.0 server
> node server.js

[nodemon] 3.0.1
[nodemon] to restart at any time, enter `rs`
[nodemon] watching path(s): *.*
[nodemon] watching extensions: js,mjs,cjs,json
[nodemon] starting 'node server.js index.js'
server: Listening on port 3000
connection successful
```
